Brand-Building Worksheet & Mood Board Template

PART 1: Brand Identity Worksheet

1. BRAND ESSENCE

- Brand Name: DigiStamp
- Tagline/Slogan: Scan. Play. Earn, Return
- One-Sentence Description:DigiStamp is a QR-based digital loyalty platform that helps small food bussinesses reward customer purchases through electronic stamps and engaging experiences.

2. CORE VALUES (Select 3-5 words that represent your brand)

- Innovation
- Simplicity
- Playfulness
- Trust
- Inclusivity

3. BRAND VOICE & TONE

- How should your brand *sound* to your audience?
  - Friendly
  - Professional
  - Encouraging
  - Lightly playful
- Sample phrases or tone examples: "**One more visit, one more stamp!**" • "**Your rewards are adding up.**" • "**Scan. Verify. Collect.**"
  Speak to customers in short, exciting phrases; speak to business owners clearly about verified purchases, control and practical benefits. Avoid claiming rewards or analytics are live when still in development.

4. TARGET AUDIENCE

- Who are they? (demographics, interests, lifestyle): Primary paying customers: independent cafés, milk-tea shops and food stalls in Iligan City, especially near student communities. End users: students, working professionals and frequent local shoppers using smartphones.

- What do they value most? Customers value convenience, progress they can see and worthwhile rewards. Merchants value affordability, low-friction checkout, configurable promotions and reliable stamp tracking.

- What problem does your brand solve for them? Paper punch cards get lost, damaged or falsified and provide weak digital records. DigiStamp centralizes loyalty balances and uses staff-verified transactions instead of awarding stamps for QR scans alone.`

5. BRAND POSITIONING

- How is your brand different or unique in your space?
  DigiStamp combines customer and café QR codes, digital stamp cards and staff purchase verification in a lightweight web experience. Café customization is available; mini-games, full analytics and redemption features are planned, not fully launched.

- Who are 2–3 brands you admire and why?
  1. Starbucks Rewards — clear progress toward repeat-purchase rewards and consistent brand identity.
  2. Duolingo — approachable, playful progress feedback and short interactions that encourage return visits.

These are design/experience inspirations only; DigiStamp is not affiliated with either brand

4. TEXTURES OR PATTERNS
   - Soft paper texture, restrained stamp impressions, rounded curves, tiny check-mark circles and a few QR/pixel cues. Keep details minimal and recognizable at favicon size.
5. LOGO IDEAS (Sketch or paste samples)

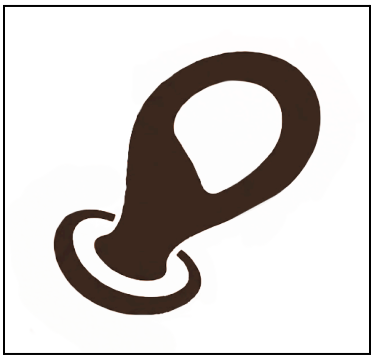

Preferred concept: The first capital “D” is the stamp itself, using your curved, flowing hand-drawn outline. The dots of the two lowercase “i” letters become tiny checked circles. The remaining letters remain highly legible. Begin with a one-color vector before trying the café palette.

This is a rough design reference, not a finalized or registered mark.
